

BioG-Max CoQ10

1.7 fl. oz. (50 mL), Precision Pump-Top

The data from years of validated research clearly supports the bioenergetic and antioxidant properties of CoQ10, and research continues to increase as potential benefits of this dynamic antioxidant are demonstrated.* CoQ10 supports the healthy function of the circulatory system, lungs and respiratory system, the brain and nervous system, the reproductive system, and even the eyes and oral tissues.^{1,2*} More recently, this beneficial compound has been shown to have an epigenetic effect, impacting the expression of hundreds of genes including those involved in cell signaling and metabolism as well as the expression of pro-inflammatory proteins.^{3,4,5*} CoQ10 is a critical antioxidant for the function of mitochondria, the energy-generating units of all the cells. Chronic oxidative stress, brought on by environmental toxicity, lifestyle, stress, and inflammation can lead to mitochondrial dysfunction, transcription of abnormal proteins, and thereby may contribute to aging and the development of disease.^{6,7*}

Biogenetix's Liposomal Delivery Systems brings the power of intravenous therapy into convenient oral delivery. Our Biogenetix's Liposomal Delivery Systems improve upon liposomal and emulsification technology with smaller, more stable particles made from the highest-grade ingredients available. In addition to exceptional absorption rates, these very small liposomal and nanoemulsified particles enhance lymphatic circulation of nutrients and intracellular delivery.^{11,12} The phospholipids, inherent in the liposomal and nanoemulsified formats, nourish cell membranes, promoting proper function for the absorption of nutrients and the excretion of cellular waste products and toxins.*¹³

Suggested Use: Take 2 pumps by mouth twice daily. Hold in mouth 30 seconds before swallowing. Repeat to desired dosage or as directed by healthcare professional. Take on empty stomach, at least 10 minutes before meals. May be stirred into small amount of water. Refrigerate upon receipt. Use within 30 days of opening. If pregnant, consult physician before use.

Supplement Facts

Serving Size: 2 pumps (1mL)
Servings Per Container: 50

	Amount per Serving	% Daily Value
Coenzyme Q10	30mg	†
Phospholipids (from purified sunflower lecithin)	50mg	†

† Daily Value not established.

Other Ingredients: Water, Ethanol, Glycerin, Vitamin E (as tocopherol and as mixed natural tocopherols), Natural Citrus Oils.

Production Technology Features:

- Tightly controlled small sizing, verified by Laser Dynamic Light Scattering on each batch.
- Mean size 50-100 nm
- Flavored with essential oils, giving pleasant citrus taste, suitable for intra-buccal delivery.
- Precise pump delivery
- Easy water indispensability when desired

Benefits:

- Healthy Heart Support
- Anti-aging Properties
- Promotes Healthy Metabolism
- Supports Healthy Cognition

CoQ10 has been demonstrated to alter and slow down the oxidation rate of cells and support a healthy inflammatory response^{8,9*} Maintaining adequate levels of CoQ10 is a key part to maintenance of overall health.* Gastrointestinal absorption of CoQ10 is limited, which is dramatically improved with the nanoemulsified format, allowing for direct uptake into the bloodstream.^{10*}
