

ViraX Plus

Viral Defense Support

Key Ingredients

Echinacea. Stimulating innate immune responses has never been more important than in the current health landscape. By providing multiple forms of this powerful immune modulator, ViraX Plus is geared toward a swift response and wide-reaching antiviral effects.

Astragalus. Astragalus is a direct TH1 stimulant long-used in traditional herbal based healthcare. By combining it with key building blocks of a healthy immune response, namely the fat and water soluble vitamins in ViraX Plus, Astragalus in this formulation has a deeper impact than it would traditionally used as a single nutrient sing action strategy.

L-Lysine. L-Lysine is an essential amino acid that cannot be built by your body - you need to take it to have it. Commonly used for the control it exerts on immune-driven arginine activity, as in cold sores. L Lysine is also a staunch promoter of your body's ability to mount an effective immune response. immune function, support optimal levels of energy, and promote improved metabolic function.

Benefits of Product

This state-of-the-art broad-spectrum immune stimulant includes vitamins, minerals, and herbs demonstrated in the medical literature to bolster innate immune system activity.

Unlike off-the-shelf options patients can get through Amazon or at their local grocer, Biogenetix utilizes a multi-category nutritional approach for maximum impact. As the marketplace looks for new and innovative ways to control immune risk, ViraX+ stands out as an effective single-step by which natural care providers can support an optimal immune response. In addition, this robust formula can only be secured by patients from one source: you. Biogenetix is committed to the stand-alone practice model and is proud to support small business.
