

Biotoxin Support Bundle

A powerful approach to supporting both microbiome and immune integrity.

The Biogenetix Biotoxin Support Bundle can be used as part of a healthy lifestyle and environment to promote proper function in the face of biotoxin burden. Biotoxin illness can be an underlying mechanism in a broad spectrum of chronic conditions. While mitigating exposure to the offending toxins remains key to patient progress, supporting the body for optimal physiology and adaptation becomes the aim. This bundle has been built specifically with this in mind.

KEY ASPECTS TO THE BIOGENETIX APPROACH INCLUDE:

- Immune Balance
(BioG-Max Resveratrol, Multi+ Powder)
- Barrier System Support
(GI ResQ, UltraBiotix Powder, Binder Pro)
- Powerful Anti-inflammatory Activity
(Curcumin+, Omega-3 Softgels)

The statements herein have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, reverse, cure, or prevent any disease.

KEY COMPONENTS

Each product in the Biotoxin Support Bundle plays a key role: from enhanced barrier system function, to active immune modulation, and optimal binding of biotoxins. The Biogenetix commitment to top-tier formulations and industry leading standards in purity come together to offer targeted nutritional support for those battling biotoxin illness. Combine nutritional support with a health-forward lifestyle for optimal results.

30-DAY SUPPLY INCLUDES:

- 2 BioG-Max Resveratrol
- 1 Multi+ Powder
- 1 GI ResQ
- 2 UltraBiotix Powder
- 1 Binder Pro
- 1 Curcumin+
- 1 Omega-3 Softgels

SUGGESTED 30-DAY STRATEGY

BioG-Max Resveratrol:
2 pumps 3 times a day

Multi+ Powder:
1 serving AM & PM

GI ResQ:
1 serving AM & PM

UltraBiotix Powder:
1 serving AM & PM

Binder Pro:
1 serving AM & PM

Curcumin+:
1 serving AM & PM

Omega-3 Softgels:
2 softgels AM & PM

For more information on supplement use and protocol strategies, please visit our online Learning Library at: <https://biogenetix.com/library/>

BioG-Max Resveratrol:

Nanosphere Delivery System brings the power of intravenous therapy into a convenient oral delivery. Nanospheres like these have demonstrated the ability to cross the blood-brain barrier, deposit their cargo intracellularly and enter lymphatic circulation.

Binder Pro:

You will not find another universal binder that has an equal affinity for harmful compounds, period. Our robust blend of naturally occurring materials can effectively support the capture of a broad spectrum of environmental contaminants patients are exposed to in everyday life.

Multi+ Powder:

A top-tier, hypoallergenic multivitamin formula designed to help meet the daily nutritional needs of both children and adults. It features natural and activated forms of vitamins, such as beta-carotene, cholecalciferol, folate as 5-MTHF, and B12 as methylcobalamin as well as patented Albion® chelated mineral complexes.

Curcumin+:

Features BCM-95®—a 100% pure turmeric extract standardized to curcumin, demethoxycurcumin, bisdemethoxycurcumin, and essential oils of turmeric rhizome. With optimal composition and bioavailability, BCM-95 brings top-of-the-line clinical impact in a rare to the marketplace, additive-free delivery.

GI ResQ:

Features four specialized ingredients for ideal gastrointestinal support. This powerful blend contains a concentrated extract of licorice that has been processed to remove glycyrrhizin—thus minimizing risk of licorice-based side effects for your most sensitive patients.

Omega-3 Softgels:

Features MaxSimil® monoglyceride fish oil that has a three times greater EPA+DHA absorption rate than an equivalent dose of other leading fish oils. Through the use of MaxSimil patented lipid absorption enhancement technology (PLATform), the fish oil is absorption-ready and can be directly assimilated in the intestinal tract for maximum benefit.

UltraBiotix Powder:

A vegetarian, dairy- and gluten-free, four-strain probiotic totaling 60 billion CFU† per sachet. It highlights heavily-researched probiotic strains, forming a synergistic support for optimal GI terrain.

Support resiliency and patient progress by adding the Biogenetix Biotoxin Support Bundle to your biotoxin-based protocol.
