NeuronaStem[®] Ultimate Multi-Vitamin Blend

PRODUCT BENEFITS

- Focused on modulating brain-derived neurotrophic factor (BDNF)
- Researched compounds for supporting memory
- Synaptic connections and neuroplasticity have been shown to be able to be positively impacted even later in life with BDNF, a focus of this formula.

NeuronaStem[®] has been carefully crafted by healthcare providers working in the field of cognitive decline reversal to provide the optimal combination of scientifically validated brainfocused nutrients to support neuroplasticity. A common challenge for practitioners working in the field is the necessity to use several different products to provide the spectrum of nutrients needed to support cognitive function.

NeuronaStem offers an elegant solution. As a single product, it delivers therapeutic doses of Whole Coffee Fruit extract, Bacopa Moniera, Magnesium Threonate (the only form that has been shown to cross the blood-brain barrier), and Citicoline.

BRAIN-DERIVED NEUROTROPHIC FACTOR (BDNF) & NEURONASTEM

Our formula contains IOOmg of Whole Coffee Fruit Extract which was found to increase blood levels of BDNF by an impressive 143% vs. base- line after 60 minutes.²

A second study confirmed that whole coffee fruit extract was able to increase blood levels of BDNF significantly more than placebo or a cup of coffee.

BENEFITS:

- Combination of important herbs and nutrients focused on overall brain function
- Brain-derived neurotrophic factor (BDNF), a focus of this formula, has been shown to support synaptic plasticity & long-term memory¹
- Higher BDNF may protect against future development of Alzheimer's and/or Dementia¹
- Comprehensive cognitive health formulation
- Fewer products / capsules needed for clinicians focused on cognitive decline
- Multiple mechanisms for cognitive function are addressed in this synergistic formula

SUPPLEMENT FACTS

| Serving size: 1 Capsule Servings per container: 90 | Amount Per Serving | % Daily Value |
|--|-----------------------|------------------|
| Choline (from Citicoline Cytidine Disphosphate (CDP) Choline Soc | dium) 25 mg | 5% |
| Magnesium (as Magnesium L-Threonate) | 6 mg | 3% |
| Bacopa Herb Extract | 250 mg | + |
| Green Coffee Bean Extract | 50 mg | + |
| [†] Daily Value not established. | | |

Other Ingredients: Gelatin (Capsule), Microcrystalline Cellulose.

NeuronaStem

NeuronaStem contains Magnesium L-Threonate (MgT), a unique form shown to increase brain levels of MgT.

MgT improved short-term memory by 18% and long-term memory by 100% in animal studies. This form of magnesium supports density of synaptic connections between brain cells and supports brain signaling pathways that are import- ant for cognitive health.^{4,5}

NeuronaStem also contains Bacopa, an Ayurvedic herb used to support cognitive function, and choline, a nutrient that has been shown to play a key role in brain development, methylation, and positive epigenetic changes. Both bacopa and choline have been shown to support memory.^{67,8}

DIRECTIONS FOR USE

Take 1 capsule 3 times per day, or as directed by your health care professional.

STORAGE

Store in a cool, dry place away from direct sunlight. Product from unopened containers that have been stored under recommended conditions (55-85° F / 13-29° C) may be used for up to 36 months.

WARNING

Consult your health care professional before use if pregnant, nursing, taking medications, or for any use by minors. Do not use if safety seal is broken or missing. Keep out of reach of children.
