Pain Support Kit

A nutrient-based system diligently crafted to support the body's natural pain relief mechanisms.

Clinical researchers have identified the "pain switch" located deep within human physiology. The products in this kit facilitate the activation of that switch by supporting your body's natural ability to dampen oxidative stress, increase clearance of inflammation, and modulate pain transmission.

SUPPORTING YOUR BODY'S PAIN RELIEF MECHANISMS:

- Dampens neurologic inflammation
- Reduces oxidative stress
- Supports the body's innate "pain switch"
- Dampen "fight or flight" responses

The Pain Support Kit targets the root mechanisms of inflammation-driven pain.

Super G Antioxidant, BioG-Max GABA and BioG-Max GSH are each uniquely formulated for maximum absorption, targeting metabolism-suppressing inflammation, and supporting better clinical outcomes.

The statements herein have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, reverse, cure, or prevent any disease.

Biogenetix: **Pain Support Kit**

Super G Antioxidant: A unique formula that provides the powerful antioxidant properties of glutathione. It also supports healthy moods, normal cortisol levels and adrenal function.

(Take 1 capsule three times per day, or as directed. Take with meals.)

BioG-Max GABA: GABA is an amino acid produced in the human body that functions as the principal inhibitory neurotransmitter in the central nervous system. It's associated with the parasympathetic side of the autonomic nervous system which balances the sympathetic (fight-or-flight) side.

(Take 4 pumps twice per day, or as directed. Hold in mouth for 30 seconds, then swallow. Take on an empty stomach or 10 minutes before meals.)

BioG-Max GSH: Glutathione is the master detoxifier and the body's main antioxidant. Toxins are linked to glutathione, which then carries them into the bile and the stool, and out of your body. It protects our cells' delicate chemical machinery, helps our energy metabolism run efficiently.

(Take 2 pumps twice per day, or as directed. Hold in mouth for 30 seconds, then swallow. Take on an empty stomach or 10 minutes before meals.)

SUGGESTED STRATEGY

Super G Antioxidant:
1 capsule, three times per day

BioG-Max GABA:
4 pumps AM, 4 pumps PM

BioG-Max GSH:
2 pumps AM, 2 pumps PM

KIT INCLUDES:
1x Super G
1x BioG-Max GABA
1x BioG-Max GSH ❄
