

The Brain Box

A nutrient-rich system of supplements designed to support cognitive function.

The nutrients contained in The Brain Box have been shown in the medical literature to promote enhanced cognitive and memory functions.

SUPPORTING YOUR BODY'S COGNITIVE AND MEMORY FUNCTION:

- Supports growth and survival for brain cells
- Supports focus and attention span
- Promotes increased mental stamina
- Dampens neurological inflammation

The Brain Box can be used to target the root mechanisms of cognitive decline and mild cognitive impairment.

The Brain Box brings treatment into the next generation of nutrition science.

Biogenetix: The Brain Box

Our nutritional blends provide a multifaceted solution by combining therapeutic ingredients into compound formulas rather than the traditional single-nutrient single-action supplements —this helps decrease the number of supplements a patient ends up consuming.

NeuronaStem: Promotes growth and survival support for brain cells, which has been shown to support long-term memory and the ability of the brain to change and adapt to new information.

(Take 1 per meal, three times per day.)

P/S Support: A formulation that provides optimal support to the body's stress-response mechanism, memory and cognition, healthy moods, and protects against oxidative damage.

(Take 2 per day, 1 in AM / 1 Noon)

Kapp-X: An anti-inflammatory support product, targeting the root of neurologic inflammation.

(Take 1 per meal, three times per day.)

SUGGESTED STRATEGY

NeuronaStem:

1 per meal (3 times per day)

P/S Support:

Take 2 per day, 1 in AM / 1 Noon

Kapp-X:

1 per meal (3 times per day)
